**Strategisk søgning – statistik og analyser**

SØGEFELTET – kan kun bruges, hvis du kender titlen på en database eller en bog!

De 4 sidste menuer anbefaler vi ikke til en strategisk søgning.

Her finder du bøger om emnet. De fleste handler om emnet generelt, og har kortere tekstafsnit og/eller tabeller, der handler om det enkelte land.

Her finder du OECDs tidsskrifter og 'working papers' om emnet, der bliver behandlet på højt niveau.

Her finder du databaser og relaterede indikatorer. Søgeresultatet kan indsnævres til et eller flere lande. 'Statistical periodicals' er bogserier, der har statistisk information og tilhørende analyser.

### Assessing the efficiency of environmental policy design and evaluation: Results from a 2018 cross-country survey

Ambitious environmental policies are necessary to enable the transition to a greener economy. However, these policies could impose economic burdens on firms through different channels. They may increase business to enter and distort competition.

# At søge i OECDs databaser

Alle databaser er opbygget på samme måde. Ud over et eller flere datasæt, listes også relaterede publikationer (bøger, tidsskrifter osv.) som du kan linke til.

## OECD Economic Outlook: Statistics and Projections

The OECD Economic Outlook online database provides historical trends and future projections for a range of economic statistics. These include demand and gross domestic product (GDP), deflators and prices, general government accounts, households and business sectors, productivity, employment, labour market, financial data, foreign exchange market, interest rates, balance of payments, international trade, supply block, oil market and other raw materials.

Tabellen er udfyldt fra starten med alle lande og en tilfældig indikator.

Tilret både lande(e), tid og variabel ved at trykke på 'variable' (den officielle guide siger 'tryk på Customize', men den knap svarer uendeligt langsomt):

### Economic Outlook No 107 - June 2020 – Double-hit scenario
